

1994 FEDERAL CUP RESULTS

Federal Cup 5K

THE ELEVENTH ANNUAL RETROSPECTIVE: The Federal Cup Race was born in 1984 partly in response to the growing interest in fitness and running. Since then, eleven successful Fed Cup races attest to the enterprising spirit and fitness of the Federal employee participants and the volunteers that coordinate the events.

Attached are the individual and team results for the 1994 Federal Cup events. The overall winner was Tim Dolen from USBR with a time of 16:58. The fastest female runner was Kathaleen Bechard from the DOE. She placed 18th overall with a time of 19:02. Among racewalkers, the overall winner was Ray McGuire from DEFAS with a time of 30:13. The fastest female racewalker was Ruth Johnson from WAPA placing 4th overall with a time of 35:04.

This year, there were 390 participants representing nearly 30 agencies. There were 272 runners, 88 racewalkers, and 20 fun runners. The competition attracted a number of regional elite runners and racewalkers as well as fitness, family, and recreational participants. There were 32 teams from 19 different agencies.

The USGS won the Federal Cup for the fourth consecutive year, while their women's open team won for the second year. EPA once again captured the racewalker trophy for the fifth consecutive year while their co-ed team defended the trophy for the third year. Lowry's seniors swept that division for the third year. Reclamation won the co-ed masters trophy for the second year.
